WORK EXPERIENCE

Parking magic box – Frontend Developer

May 2025 - Jul 2025

Built web tools and WordPress plugins using PHP, JavaScript, and MySQL. Experience with creating custom admin pages, writing SQL, building simple business websites and landing pages. Also worked with WordPress multisite setups and database connections between sites.

Grupa NEUCA– Software QA Engineer

Feb 2024 - Nov 2024 (10 month)

Testing the functionality of the logistics application, managing data in SAP-MM, creating and testing interfaces in SOAP UI, verifying communication between systems, writing test cases, preparing test data, and identifying, reporting, and verifying defects. I also deployed new application versions to the test server for pre-production testing and updated servers.
